Bank of Bozeman
PO Box 10070
Bozeman, MT 59719

To Whom It May Concern:

We approached the Bank of Bozeman with a small business concept new to our area. Fresh Healthy Vending was a concept that we thought would benefit our community. In most schools, fitness centers, and office buildings, vending machines provide snacks and beverages. We wanted to offer a healthy alternative to the products in those machines. Bank of Bozeman was extremely receptive to our idea.

Bank of Bozeman was very helpful and accommodating to us throughout the process of obtaining a small business loan. From the conceptual idea through the research phase and then on to the business plan and number crunching part of the process, Bank of Bozeman fostered our success.

We were able to obtain a loan quickly and get right down to starting our business. Today, we work closely with everyone at Bank of Bozeman. The tellers, customer service representatives, managers and officers are always available to assist us.

The Bank of Bozeman has made getting the loan for our new business hassle-free and enjoyable. We give the Bank of Bozeman our highest recommendation.

Sincerely,

Jim and Ellen Beck
